November 28, 1978

1770

SUBJECT: Guyana -- U.S. Military Personnel Involved

At its peak strength on November 25, the Joint Task Force numbered 321 personnel. Average daily strenght in country during the period 22 - 26 November was approximately 280.

------MAC has yet to provide the total number of aircraft and aircrews involved due to the nature of their operation----for example, the aircraft which flew home the remains of Congressman Ryan may not have been used for Guyana support except for that one mission. We should have some fairly precise figures from MAC shortly however.

SEE ATTACHED SHEET FOR PERSONNEL BREAKOUT
